## OEM Approved Distributor of Component Spares & 100% Overhaul Kits

PAG's Glasgow location operates as a premier Aviation Maintenance, Repair, Overhaul (MRO) facility, serving as a reference in the EMEA market for the maintenance of a wide range of aviation industry components. Our component shop is a trusted provider of specialized MRO support to the global market.

Our engineers and technical specialists bring extensive work experience to every aircraft component repair project, ensuring the utmost importance is placed on safety, quality, and operational readiness. The facility combines advanced equipment with proven methodologies to deliver reliable overhaul services for diverse aircraft components.

Part of PAG's Component Services, Turner Aviation supports fixed- and rotor-wing business jets and commercial operators throughout the United Kingdom and worldwide. With FAA repair station certification, along with BSI, EASA, and CAA approvals, Turner Aviation demonstrates our commitment to industry standard excellence and regulatory compliance.
