24/7/365 AOG: 562.884.1003 - Repair Station: FAA#YNBR921L - EASA 145.6525 - ISO 9001:2015 Registered

PRECISION AVIATION CONTROLS is an established overhaul and repair facility, located in Independence, Kansas, that has specialized in GE-J85 products for more than 25 years. With significant experience and capability in inspection, repair and testing, the company has acquired an extensive inventory of J85 accessory items, which it is now offering for sale. These parts can be purchased in a variety of conditions, including: overhaul, as removed, and by component detail part. All parts have been inspected and tagged by PAC. Assembly level exchanges are also available. All serviceable components are warranted.

PAC is ISO 9001:2015 registered and holds an FAA Air Agency Repair Station Certificate, Number YNBR921L, with Accessory Class ratings 1, 2 and 3 and Limited Powerplant authorizations. The company is active in Central Contractor Registration (CCR) and complies with International Traffic in Arms Regulations (ITAR), registered with the United States Department of State.

The parts in this catalogue are listed by Part Number and by National Stock Number (NSN). Please do not hesitate to contact our team regarding the availability of parts in this inventory.

Tachometer Generators

Part# 2CM11BAA5 / NSN# 6620-00-785-2251

CHALLENGE

US Navy Shortage of J85-21 Tach Gens

- Aging parts, lack of reliable repairs, risk of failure
- Individual strands of wire breaks inside the colored sheathing
- "Failure Mode" disrupts power to T5 Amplifier, A8 nozzle closes

SOLUTION

PAC & US Navy Develop Overhaul Statement of Work

- Overhaul Includes:
 - New Bearings
 - Cannon Plugs
 - Rewound 12- and 2-Pole Stators
 - Paint and ID Plate
- 30 Days or Less OVH Turnaround
- Exchange Units in Inventory

TIMELY SUPPORT TO MISSION-CRITICAL OPERATORS WORLDWIDE

When you need a part, you usually need it now. In AOG situations, we can immediately dispatch an overhauled or new component to your location, from our inventory of over 100,000 line items 24/7/365.

Our trademarked **ISMRO**® (Inventory Supported Maintenance, Repair and Overhaul) business model means we stock what we service, an invaluable asset for mission-critical operators.

Warranty Policy

Precision Aviation Group (PAG) warrants each instrument or aircraft accessory to be free from defects in material and workmanship under normal usage, providing installation and handling have been conducted in a professional manner. PAG warrants all instrument exchanges and overhauls for one (1) year or three hundred (300) hours of operation, whichever comes first. The defective unit will be repaired or replaced at PAG's discretion once the unit is returned and the malfunction is verified. After the repair or replacement, the item will retain the unused portion of the original warranty. That warranty will be void if seals are broken. Warranty will be void on vacuum gyros if foreign matter, such as carbon or oil, is found upon disassembly.

Limitation of Warranty

The above warranty shall be the sole and exclusive remedy. The foregoing warranty is limited and exclusive. PAG makes no other warranty, expressed or implied, of merchantability or fitness for a particular purpose. In no event will PAG be liable for resultant damage, loss of use, or consequential damages.

Return Policy

Any unit purchases from PAG may be returned for credit, in its original unopened packaging, via appropriate shipping methods within seven (7) days of the purchase at its original price less a 25% restocking fee. If the unit is purchased from a third-party vendor by PAG on behalf of the customer, PAG reserves the option to invoice the customer for any restock fees charged by the third-party vendor. PAG reserves the option to invoice the customer for costs incurred in the re-certification of any unit returned for credit. If any unit returned for claimed warranty is found to be functional with no defects, PAG reserves the option to invoice the customer for cost incurred in the re-certification of that unit.

WE ACCEPT ALL MAJOR CREDIT CARDS

[PAG EXCHANGE AGREEMENT]

Company Name: _____

Address: _____

This Exchange Agreement (Agreement) between Precision Aviation Group, Inc. including its subsidiaries and affiliates ("PAG"), and the company listed above ("Customer") governs all exchange transactions between the parties. Unless the parties enter into a different agreement, this Agreement will apply to all exchange transactions between the Customer and PAG, and shall remain in effect indefinitely unless it is superseded by another agreement entered into by both parties or rescinded by PAG. If it becomes necessary to change this Agreement or the offering terms of this Agreement need to be rescinded by PAG, written notification shall be given to the Customer. In relation to material exchanges between PAG and the Customer, this Agreement supersedes all previous agreements and acceptance of it by the Customer renders all previous agreements null and void. Notwithstanding the forgoing, the terms and conditions of PAG's invoices to Customer shall also apply to any transactions between the parties, and the terms of such invoices shall be interpreted consistent with and subject to this Agreement.

BILLING

The Customer will be charged an exchange price as quoted by PAG for each exchange transaction. The Customer will also be advised of and billed a core charge. This core charge will represent the amount that the Customer will owe PAG above and beyond the exchange price if a core of equal or greater value is not returned or the returned core is unacceptable. The core charge will be credited to the Customer's account upon receipt and acceptance of the core by PAG. The exchange price is based on a like core (a repairable core of the same model and same part number as the unit supplied by PAG), being returned in an economical condition as determined by PAG in its sole discretion. Cores which have been subjected to use or damage constituting more than the normal "wear and tear" will be returned "As-Is" to the customer or subject to additional charges. Cores returned that are found to be Beyond Economical Repair (BER) will be subject to invoice to the Customer at full price. PAG may, in its sole discretion, offset any amounts it may owe Customer or Customer affiliates in the event Customer or Customer affiliates fail to pay any amounts when due. PAG may also retain and resell any core units or other materials that the Customer or Customer affiliates provided to PAG to offset any amounts due. Notwithstanding the forgoing, PAG reserves all rights in law or equity it may have in addition to those set forth herein.

CORE CONDITIONS

PAG defines a repairable core as a unit that is in the condition as removed from an aircraft, a unit that is not incident related (i.e. no fire or water damage) and a unit that can be economically repaired. If the cost to repair the core exceeds 75% of the flat rate charge, the unit may be deemed to be BER. Furthermore, PAG will not accept the following:

- Cores that have been heavily modified or extensively and unproductively worked on.
- Cores with missing, modified or illegible data plates.
- Cores that arrive disassembled.

CORE RETURNS

All cores shall be returned to PAG [see specific subsidiary or affiliate address on invoice]. Any and all transportation costs for the return of the core are the responsibility of the Customer. Customer exchange cores are to be returned to PAG within 30 days. Core units not returned within 30 days may, at the discretion of PAG, be subject to an additional charge of 2% of the outright sale price per day. If no core is returned after 45 days, Customer shall be in default under this Agreement, and PAG shall conclude that no core will be sent, and the Customer will be obligated to pay PAG the full core charge immediately without further demand. If the Customer later chooses to return a core after 45 days, PAG's acceptance of such core is subject to approval by PAG in its sole discretion, including the amount of any credit to be applied to Customer account for the past due core as PAG may incur additional costs as a result of not receiving the core within 45 days.

Original exchange units returned for credit after seven days may, at the discretion of PAG, be subject to a restocking fee of 25% of the exchange price or \$175.00 (whichever is greater). In addition to the restocking fee, the cost to recertify the returned unit may also be assessed if the original certification is not returned.

OTHER

Both Customer and PAG agree that if any provision of this Agreement is unenforceable, that provision either may be enforced to the maximum extent allowed by law, modified as necessary to make it fully enforceable, or considered severed from this Agreement. Customer and PAG further agree that any unenforceable provision does not invalidate any other provision of this Agreement, or the Agreement in its entirety, and the parties agree that they will continue to fulfill all other obligations hereunder. This Agreement shall be governed by and construed in accordance with the laws of the State of Georgia, USA, without regard to the conflict or choice of law provisions thereof, and Customer consents to the jurisdiction of the state and federal courts in and for Fulton County, Georgia for all disputes arising out of or related to this Agreement.

The undersigned parties agree to all of the conditions set forth in this Exchange Agreement.

[PAG END USE / USER STATEMENT]

TO WHOM IT MAY CONCERN:

Compliance with United States Export Regulations

It is Precision Aviation Group's policy to verify the end use and end user of all product sales and repairs to ensure compliance with applicable U.S. export control laws and regulations. Because the products you are purchasing or having serviced could be exported and used outside of the United States, please confirm the following:

1. We will not export or re-export any Precision Aviation Group supplied products to any debarred country unless otherwise authorized by the United States Department of Commerce or Department of State.
2. We acknowledge that U.S. law prohibits the sale, transfer, export or re-export or other participation in any export transaction involving Precision Aviation Group's supplied products with individuals or companies listed in the U.S. Commerce Department's Table of Denied Orders, the U.S. Treasury Department's list of Specially Designated Nationals or the U.S. Department of State's list of individuals debarred from receiving Munitions List items.
3. We will abide by all applicable U.S. export control law and regulations for any products purchased from Precision Aviation Group and will obtain any licenses or prior approvals required by the U.S. government prior to export or re-export or Precision Aviation Group supplied products.
4. We agree that the export control requirements in No. 1-3 above shall survive the completion, early termination, cancellation or expiration of the applicable purchase order, agreement or contract.
